FOSTER HOME APPLICATION

WELCOME TO FuRRR Feline Rescue and the FOSTER CARE PROGRAM. We are glad you have come to apply to be a Foster Home for a cat(s) and/or kitten(s) from our rescue. The following information is requested so that your Foster Home Evaluation Team can determine if the set-up is appropriate and if so, the correct cat(s) and/or kitten(s) to join you. The animal's welfare is our foremost consideration. The evaluation process is designed to help us determine if the foster home is in the animal's best interest, and to assist you in finding a cat(s) and or kitten(s) most compatible with your lifestyle.

The cat(s) and kitten(s) available for foster care come to the Rescue from a variety of sources. All cat(s) and kitten(s) are examined upon entry, and their health is routinely monitored while at the rescue, but there is always a chance that an animal is incubating a disease without showing any clinical signs. We attempt to have all kittens and mothers tested for Felv/FIV prior to placement in Foster Homes, but it is not always possible. Prior to integrating fosters with home cats, testing should be completed. When placement is done prior to testing, it will be necessary for the foster home to have a separate room to house the foster kitties. In the cases of mother & kittens or pregnant mother, they are usually placed under emergency conditions. When that is the case, she/they are placed in isolation in the foster home, until such time that appropriate veterinary examination, testing and vaccination can be completed, at the expense of FuRRR. FuRRR is responsible for ALL medical needs after the cat(s) and kitten(s) have been placed in foster care.

FuRRR will be the primary source of food and litter.
